

Transformer Service Solutions

VIRGINIA - GEORGIA TRANSFORMER
ONE SOURCE—ONE COMMITMENT

Virginia-Georgia Transformer Corp has the capabilities for complete transformer support. From installations, replacements, or scheduled maintenance, VTC has the trained personnel and equipment for all of your transformer service needs.

VTC maintains a fleet of mobile vacuum dehydrator/oil processing trucks designed to be anywhere in North America with minimal notice.

These trucks are equipped with a full set of tools, safety equipment, and generators allowing self-sufficiency in remote areas where site power may not be available.
