

VIRGINIA TRANSFORMER CORP
The Commitment Company

INDUSTRY DATA SHEET

METALS

POWER FOR THE HARSHEST ENVIRONMENTS.

Custom transformers for metals producers, from the largest
US-owned manufacturer.

SHORTEST LEAD TIMES

IN THE INDUSTRY, ACROSS OUR
FULL RANGE

DESIGNED SERVICE
LIFE

BUILT FOR METALS PRODUCTION CONDITIONS

01

Harsh Environment Protection

Built for dust, dirt, moisture, chemicals, and airborne contaminants. We design each transformer for the conditions at your site.

02

Liquid-Filled & Dry-Type

Liquid-filled and dry-type transformers for a wide range of metals production applications, including enclosed TENV designs for demanding indoor environments.

03

Custom Engineering

Built for your application. Our engineers design around your voltage requirements, space constraints, operating conditions, and site environment.

04

Drive & Rectifier Duty

Drive isolation, variable-speed drive, and rectifier transformers for demanding motor loads, including 18, 24, and 36-pulse designs.

05

Reliable, Efficient Power

Designed to deliver reliable power while reducing transformer losses and controlling operating costs.

06

Specialty Applications

Solutions for grounding, voltage regulation, autotransformers, multi-winding applications, large specialty padmounts, and other complex power requirements.

PROVEN IN THE FIELD

METALS PRODUCERS RUN ON VIRGINIA TRANSFORMER.

TRUSTED BY METALS LEADERS

METALS DELIVERIES FROM THE PORTFOLIO

CHARTER STEEL • CLEVELAND, OH

30/56 MVA • 138/11.47 kV

Two 30/56 MVA units for a fully integrated SBQ mini mill.

1971

Built For Heavy Industry Since 1971

Arc furnaces, rolling mills, and process lines have run on us for five decades.
